

Friends of Duchess Wood

On Wednesday 20th July work will start to upgrade the footpath across the Pony Field and carryout drainage improvements.

As a result there will be car park closures at certain times to allow aggregate to be delivered safely.

Car parking bays will be used to store materials so car parking space will be restricted.

In addition our Contractor will be operating heavy machinery at the car park, on the path up from the car park and at the Pony Field. Please keep dogs on a lead in this area, be extra vigilant and avoid contractor equipment during this time.

We anticipate the work will take about a week to complete and we will try to keep disruption to a minimum.

Thank you
Friends of Duchess Wood
